Dear Councillors,

PRE-PLANNING APPLICATION CONSULTATION FOR A MOBILE PHONE BASE STATION INSTALLATION AT CS_309360, HELLEDON COMMUNITY CENTRE, MIDDLETONS LANE, HELLEDON, NORFOLK, NR6 5SR (NGR: E620570, N312430)

Cornerstone is the UK's leading mobile infrastructure services company. We acquire, manage, and own over 20,000 sites and are committed to enabling best in class mobile connectivity for over half of all the country's mobile customers. We oversee works on behalf of telecommunications providers and wherever possible aim to:

- promote shared infrastructure
- maximise opportunities to consolidate the number of base stations
- significantly reduce the environmental impact of network development

Cornerstone are in the process of progressing suitable sites in the Hellesdon area for radio base stations that will improve service provision for VMO2.

The purpose of this letter is to consult with you and seek your views on our proposal before any planning submission is made. We understand that you are not always able to provide site specific comments, however, Cornerstone and the operators are committed to consultation with communities on our mobile telecommunications proposals and as such would encourage you to respond.

As part of VMO2's continued network improvement program, there is a specific requirement for a new telecommunication base station at this location to provide upgraded 4G coverage and capacity as well as new 5G coverage in this area of Hellesdon.

Mobiles can only work with a network of base stations in place where people want to use their mobile phones or other wireless devices. Without base stations, the mobile phones, and other devices we rely on simply won't work.

Please find below the details of the proposed site and the alternative site options considered and discounted in our site selection process: -

Our technical network requirement is as follows:

In the first instance, all correspondence should be directed to the agent.

CS_309360, HELLEDON COMMUNITY CENTRE, MIDDLETONS LANE, HELLEDON, NORFOLK, NR6 5SR (NGR: E620570, N312430)

The operator currently provides coverage to the area from an existing installation located at 241, Reepham Road, Hellesdon, Broadland, Norfolk, NR6 6UW (NGR E:620524, N:312676). However, the existing installation is not able to support modern telecoms installation required to enable both operators Vodafone and VMO2 to provide the latest 4G and 5G coverage and capacity to the area. As such, a new replacement site for VMO2 is required. As the replacement VMO2 site will need to cover the same target coverage area, it needs to be located as close as possible to the existing site.

A number of options have been assessed in respect of the site search process and the preferred option is as follows:

CS_309360, HELLEDON COMMUNITY CENTRE, MIDDLETONS LANE, HELLEDON, NORFOLK, NR6 5SR (NGR: E620570, N312430)

The proposed installation of a telecommunications base station comprising a 20m monopole supporting 6 no. antennas, together with 3 no. ground based equipment cabinets and ancillary development thereto.

Details enclosed on drawings numbered: 100A, 200A, 201A, 300A & 301A.

Alternative site options considered and rejected are as follows:

Site Type	Site Address	National Grid Reference	Reason for not choosing site
D1 - Existing Telecoms Site	241, Reepham Road, Hellesdon, Broadland, Norfolk, NR6 6UW	E:620524, N:312676	The operator has fully investigated upgrading this site to provide the latest technologies for 4G services as well as new 5G coverage/capacity in to both the VMO2 and Vodafone networks. However, the existing installation is not able to support the new 5G antennas for both Vodafone and VMO2. This existing telecommunications site has therefore been discounted for the operators new technology requirements for this reason. A new site for VMO2 is therefore needed to provide this operator with the latest 2G, 4G and 5G technologies. The existing site will remain for Vodafone technologies only.
D2 - Streetworks	Kudos Residential, 303, Reepham Road, Hellesdon, Norwich, Norfolk, NR6 5AD	E:620220 N:312937	An installation at this location is located too far from the target area to deliver the required level of coverage. This site has therefore been discounted for this reason.
D3 - Streetworks	Drayton Wood Road, Hellesdon, Drayton, Broadland, Norfolk, NR6 5DG	E:620166 N:312970	An installation at this location is located too far from the target area to deliver the required level of coverage. This site has therefore been discounted for this reason.

The Local Planning Authority mast register and our records of other potential sites have already been reviewed, the policies in the Development Plan have been taken into account and the planning history of the site has been examined.

All Cornerstone installations are designed to be fully compliant with the public exposure guidelines established by the International Commission on Non-Ionizing Radiation Protection (ICNIRP). These guidelines have the support of UK Government, the European Union and they also have the formal backing of the World Health Organisation. A certificate of ICNIRP compliance will be included within the planning submission.

In order to give you time to send your comments or request further information, we commit to allow at least 14 days before an application is submitted to the Local Planning Authority. This 14-day period starts from the date at the top of this letter.

We would also be grateful if you could please advise of any local stakeholders or groups that might like to make comments.

We look forward to receiving any comments you may have on the proposal.

Should you have any queries regarding this matter, please do not hesitate to contact me (quoting cell number **CS_309360**).

Yours faithfully,
